

Airmen Certification Standards (ACS)

Notice is resent due to a distribution issue and seats are reserved for those already registered. We will discuss the new Airmen Certification Standards (ACS) that will replace the Practical Test Standards. The key points to remember is the conduct of the practical test will not change but the knowledge, skills and risk management elements are arranged in an integrated format. The new format will better serve evaluators, applicants and instructors and help the FAA align standards, guidance and test materials.

Directions: US-101 South, take CA-46E exit toward Fresno/Bakersfield. Turn left onto Airport Road at 2.4 miles, cross Dry Creek Road and turn right onto Wing Way and make another immediate "U-turn" onto Taxi Way and follow it to the terminal. The seminar will be located in the foyer area upstairs in the main terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
